.....

### PROJECT LOCATION:

The Mound, Edinburgh

.....

### PROJECT VALUE:

£200K

.....

### PROJECT DURATION

24 weeks

.....

### CONTRACT TYPE

Competitive

## PROJECT DETAILS

Sharkey were appointed as interior fit out contractor for the installation of the HBOS Museum on the Mound located in central Edinburgh. This fascinating museum celebrates over 300 years of money, bank notes, coins and the way that the banking system has changed over the centuries.

After completing the main building refurbishment, Sharkey started work on the Museum on the Mound which was situated directly below the historic headquarters.

The work consisted of lining the entire museum with acoustic wall panels so that the Senior HBOS Executives and the building above would not be disturbed by the visitors.

Sharkey then installed the large display cases and cabinets. Created by Studio SP, the displays are also designed to provide the most secure and protective environment for the objects, with air temperature, humidity and lighting carefully controlled and monitored to ensure the preservation of the artifacts whilst gaining maximum public visibility and access.
