Perth Concert Hall

PROJECT LOCATION:

Perth, Scotland

PROJECT VALUE:

£1.2m

PROJECT DURATION

42 weeks

CONTRACT TYPE

Competitive

PROJECT DETAILS

Sharkey were engaged by Sir Robert McAlpine to fit-out the main concert hall and auditorium of Perth Concert Hall.

Described as a building "rich in history and alive with a new energy" and arguably one of Scotland's most significant buildings in recent years.

The only new build, full scale concert hall built in Scotland since 1990, Sharkey were involved in a tendering process that valued quality and programme delivery as importantly as it did cost. Having demonstrated that quality combined with competitive pricing is at the heart of the Sharkey core values, the contract was awarded and the Sharkey delivery team was assembled.

This project became one of the highest quality joinery projects the company has ever undertaken. Sharkey were responsible for delivery of the 1200 seat concert hall, the Ganochy Auditorium, which features uniquely configured flow lifts and moveable seating wagons.
