

SHARKEY
WHO WE ARE

WHO WE ARE

Sharkey provide solutions in Construction Management, Property Services, Investment and Development.

As a family business dating back to 1969, we have adapted and grown within an ever-changing construction industry. Directly employing in excess of 150 professionals, the Sharkey group currently has an operating turnover of circa £40m. Sharkey have a number of national framework agreements in place, and we continually strive to widen our client base throughout the UK.

Within our organisational structure we also provide Quantity Surveying, Estimating, Logistics and Planning services. We have full responsibility for managing and co-ordinating our supply chain partners in line with the pre-construction and construction programme and offer pre-construction engagement from all areas of our business including defects monitoring and clearance.

From the start of any project we make every effort to understand our clients concerns and address these in a structured manner. We look at things from your perspective, not ours.

- 80% of our work in 2008 was won through competitive tender.
- During 2008, 1 in 5 of our projects completed had a value under £100k.
- We are currently delivering projects in every property sector throughout the UK.
- Our average project value is circa £400k.
- We manage projects ranging from a value of £20k, right up to £20m
